## **DETAILED ACTION**

### ***Response to Amendment***

1. This Office Action is responsive to the Amendment to the specification filed 2/11/04 and the Amendment to the claims filed 7/19/04.
2. The Amendments filed 2/11/04 and 7/19/04 successfully overcome the objection and the rejection set forth in paragraphs 1 and "2", respectively, of the Office Action mailed 10/7/03 [note that paragraph "2" was not numbered in the previous Office Action]. Accordingly, the objection and the rejection are withdrawn.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-15 are rejected under 35 U.S.C. 102(e) as being anticipated by US 2001/0016924 to Yahiro (Yahiro) for the reasons of record as set forth in paragraph 3 of the Office Action mailed 10/7/03, and as further discussed below.

4. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 11-168049 (JP '049) for the reasons of record as set forth in paragraph 4 of the Office Action mailed 10/7/03, and as further discussed below.

5. Claims 1-15 are rejected under 35 U.S.C. 102(b) as being anticipated by US 5,972,794 to Katakura et al. (Katakura) for the reasons of record as set forth in paragraph 5 of the Office Action mailed 10/7/03, and as further discussed below.

### ***Response to Arguments***

6. Applicant's arguments filed 2/11/04 have been fully considered but they are not persuasive.

With respect to the rejections over Yahiro, JP '049, and Katakura, Applicant argues that the prior art does not teach or suggest that the interface of the membrane layer member with the frame support is epitaxial. However, each of the applied references disclose forming a boron doped layer, corresponding to the membrane layer of the present invention, by doping the surface of a silicon wafer, corresponding to the frame member of the present invention. See paragraph [0036] of Yahiro, paragraph [0012] of JP '049 (based on an oral translation obtained by the Examiner), and column 4, lines 44-50 of Katakura. This is the same process utilized in the present invention to form the membrane layer so as to be epitaxially joined to the frame. See page 4, line 8 to page 5, line 3 and page 6, lines 8-11 of the present specification. Therefore, the

boron doped layers of the applied prior art are similarly epitaxially joined to the silicon wafers from which they were formed.

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
